Carpentier Now In Chicago All Up In The Air

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, May 14.—After being threatened with an injunction that might cause his visit to become indefinite, Georges Carpentier called off all his social engagements here and has gone with his whole party to Chicago.

Carpentier was met at the pier yesterday by Billy Gibson, manager of Gene Tunney, who claims to have first call on the Frenchman's services in this country. Gibson didn't mention business at the time but asked for an appointment.

"See you at the hotel," M. Descamps, the Frenchman's manager said. Gibson waited at the hotel until a telegram extending him the greetings of the season came from Philadelphia, where Carpentier's party stopped long enough to write.

Gibson said today he was going to Chicago to stop the Carpentier-Gibbons fight which is scheduled for May 31, in Michigan City. He claims he can do it and that he is certainly not going to stand for anyone making a sucker out of him.

Carpentier insists that Gibson has nothing to cry about. He figures that he will beat Gibbons and then he will let Gibson put on his Tunney fight.

Gibson does not believe that Georges will be worth anything after Gibbons works on him.

THE WORLD AND HAIR DO MOVE

When newspaper men begin to write articles in favor of bobbed hair, it is pretty certain that they have lost an argument at home and someone has shown them the light. Anyway it is said that it is the correct thing to bob the hair. The ladies have reached the conclusion that bobbing the hair is another one of the privileges of the race to which the men are not to have the exclusive right any longer. Club women are taking the matter up approvingly and from certain points it is said that many favor the complete removal of woman's former crown of glory, by using the clippers altogether and not the scissors. In other words, the clipped head is now expected to take the place of bobbed heads. But all great reforms have economic results not always foreseen. The hair dressers in many places are doomed to go the way of discarded war ships. They are losing their trade and hastily putting up new signs, reading "Marcelling Done Here." The barbers are going off to college and planning to double the size of their shops, talking machines have been removed from all tonsorial parlors, and the safety razor is becoming more popular with the men. We wonder when the ever alert dealers in second hand material or junk dealers will change their signs to read: "Scrap Iron, Waste Paper and Hair Bought and Sold Here."

Governor Pinchot's influence on President Coolidge's political destiny was not ended by the primaries in which he was defeated as a candidate for delegate at large from Pennsylvania to the Republican national convention. In the opinion of those who know what is happening in Washington. The investigation of the Bureau of Internal Revenue, they are saying, is the factor which will reveal Mr. Pinchot's importance as a foe of Secretary Mellon and President Coolidge.

MEN MADE OF BOYS, WOMEN OF GIRLS

Mexia men and women must not neglect their boys and girls. It is surprising to learn how many things can be made out of some products, cotton seed for example, but you can't make men out of but one thing in the world and that's a "boy." The only thing you can make a lady out of is a "girl." With proper attention it is wonderful what miracles may be wrought with the raw material of boys and girls.

In a small Tennessee town, a doctor was awakened one night by the wailing of a baby. Upon investigation he found on the doorstep a wee baby wrapped in an old quilt. There was nothing that would give a clue to the identity of the parents. So the doctor and his wife adopted the little luddies, although they had several children of their own. That doorstep baby manufactured into a man, going through the processes of a refined, cultured, christian home, twice became governor of Tennessee.

Mexia schools are soon to be out for the Summer. Preparations should now be made to continue wholesome influences for the full rounded development of the pupils. The equipping of the Hughes park should be ready for them by the end of school.

Karek Temple draws a large membership from Mexia and this territory and feel like the Mexia Shriners are a large part of the Temple and they are always willing to contribute to the entertainment of Mexia Shriners and their friends and are coming here to do their bit in helping the boys put over the Circus, for they know that what money is earned by the local Shriners out of the circus will be spent where it will do the most good for all concerned.

Tomorrow evening is designated as Karek day in Mexia and a hearty welcome will be given the Wacoites when they invade our city and give the public a real treat without any obligation on the part of or any cost to the Shriners or any one else.

Friday night will be designated by the Shriners as Corsicana day when a hundred Shriners and their friends are expected from Corsicana.

were feature acts deserving special mention, a large part of the exhibition was participated in by all the members of the gymnasium classes, thus illustrating the principle of giving benefit to the greatest number possible.

The program was divided into two general parts: Gymnastics and Dances. In the first division, such precision and excellence of training and performance were evident that on-lookers were surprised as well as highly pleased. One spectator remarked that he had seen a number of such exhibitions in colleges and universities, but that he had never seen such uniform excellence of performance as was indicated in this one.

The second part of the program consisted of a series of interpretative dances. These varied in theme from the beautiful to the comic, but without exception they were well done. The whole program, which is given below, was a credit to the school management, to Miss Earle, the instructor, and to the girls who took part in the exhibition.

- Part I.—Gymnastics.
1. Indian Clubs—Students.
 2. Mimetics—Students. Bowling, Golf, Swimming, Athletic High Jump, See-Saw, Paddling, Rowing.
 3. Tumbling by Students.
- Part II.—Dances.
1. Elf—Edna Irwin, Josephine Wolford, Lalia Colbert, Juanita Collins, Inez Calame, Willie Mae Stewart.
 2. Rainy Day—Elizabeth Jones, Marianna Murphy.
 3. Little Miss Muffet—Eleanor Moore.
 4. Parade of Wooden Soldiers—Lilla Taylor, Albertine Mace, Tina De Long, Virginia Rollins, Ruby Kennedy, Ola Barnes, Mary Porter Travis, Ruth Lilly, Lurline Betts.
 5. Easter Rabbit—Lalia Colbert.
 6. Chinese Love Story—Eugenia Mullens, Dorothy Brown, Elizabeth Jones.
 7. Polish—Lucille Williams, Afton Laird, Anne Faye Hendon, Tina De Long, Opal Hale, Emma Jean Smith, Eason Stewart, Ruby Miller, Thelma Taylor, Volma Wallace, Jewel Hendon, Leona Steele.
 8. Southern Sweethearts—Men: Albertine Mace, Lilla Taylor, Lurline Betts, Ha Mae Overstreet, Hazel Manning, Willie Mae Stewart. Ladies: Lucena Mullins, Lois Terry, Clovis Porter, Marianna Murphy, Eleanor Moore, Mary Porter Travis.

THIS DRESS HAS A DUAL PERSONALITY

Left: A dainty job of crepe Chenille and lace gives a charmingly feminine appearance to this plain dress of black Satin de Lyon. Right: The same dress takes to itself a marcelled and extremely smart plastron of white Satin de Lyon with a soft black ribbon.

A very good way to add variety to the wardrobe is to have a dress which you may wear with very different kinds of collars. Take, for instance, this dress of black Satin de Lyon, with long sleeves and a round-shaped low neck in front. It is equally at home with the two styles of neckwear pictured, and presents an entirely different appearance with each one.

MILADY WOULD A TRAVELLING GO

In the opening of a comfortable travelling coat, says Henri Creange, this scarf in printed crepe bordered with fringes at the ends, would be very attractive. The way the scarf is worn is to be noted; one end falls at the back but inside of the coat the other in front and outside. The hat very often matches the scarf, as in this case.

This sketch by Cheney is a whole volume on how to enliven even a rough day at sea, or a winter coat on land.

Bobbed Hair Now Costs \$180 a Year With High Peak Yet to Be Reached

"It's not the initial cost, but the upkeep!" That's the wail of the bob-haired lady. And beauty experts are placing the upkeep on the average head of bobbed hair at \$180 a year. This includes marcelling, curling, trimming and shampooing. Babylonians and Egyptians never dreamed of spending so much on their curls. Nor did the Greeks and Romans on their close-cropped polls and fragrant oils.

In Paris this high upkeep cost has been cut in half by the simple process of wearing a hair net over the bob at night. It saves the curl and reduces hair-dressing bills. The custom is rapidly taking hold in America. Gainsborough nets, always of large construction, are replacing the old-time night cap, say experts. The small, tight net is ineffective.

Evolution of what stylists term the "bob fad" can be sharply traced, not only in the type of the bob, but also in manner of dressing it. For a long time after bobbing first began the hair was permitted to "run wild." In recent months the wearing of nets has gained wide popularity because of the freedom and wide choice of bob styles it makes possible. Except among the poorer classes, nets are now worn as much with bobbed as with long hair. Gainsboroughs are used, because, being large and true-shaped, they permit room for all bobs, the fluffy Ina Claire, the King Tut, the Cluster-curl Shingle or the straight bob. All these need space, and stylists say a small hair net flattens the hair into ugly clumps.

"Demand for nets," said an officer of the Western Company, world's largest manufacturers of hair nets, "has been especially brisk in recent weeks. A determination to reduce the estimated cost of \$180 a year is obviously the cause."

apparent in that district. The field at present is said to have a potential production of 60,000 barrels daily, about half of which is being shipped by train. They forecast a daily production for that Balcones fault pool of 100,000 barrels daily. It is also reported that the Guadalupe extension, three miles across the San Marcos river, is proving more prolific than the discovery pool. In the Guadalupe pool some of the new wells which came in for better production than was anticipated have had to run into dirt storage.

All that prevents enthusiasm running high in the district there is said to be the water trouble which is considered somewhat discouraging. The producers soon turn to fluid, it is claimed. The boundaries of the pool have not been defined in any direction. Many wells are now on the sand and are expected to be brought in as soon as storage facilities have been provided and field line facilities arranged. The heavy yield the first few hours has provoked a contest, more or less spirited, it is claimed, with a view of being first to secure the flush.

GREB-DELANEY GO TO BE BIG BATTLE

By HENRY L. FARRELL

NEW YORK, May 13.—When Harry Greb, world's middleweight champion, meets Jack Delaney, the slim Bridgeport challenger, at the Yankee Stadium in June, many of the experts believe the title-holder will be in for the warmest time of his career. Some think he will be stopped.

Greb has been scheduled for the warmest time in his career so many times that he should have been burnt to a crisp by this time, if there were good reasons for believing that he did have a hot time of it.

The champion is, without a doubt, one of the most individual types that has ever held a title. With the possible exception of Johnny Dundee, the greatest freak of the ring, Greb has fought more, and in more classes, than any fighter of the present day at least.

He has been given little credit for a record that is really remarkable. The critics say that he can't hit, that he is a slapper, that he don't know how to box, that he has to use rough tactics and that he hasn't a single attribute of a great fighter.

In spite of this, Greb out and beats any fighter that he really wants to beat. He was the light heavyweight

energy to go fifteen rounds with the Greb took Tom Gibbons, when the St. Paul light heavyweight was in his prime, and gave him a lacing in Madison Square Garden. Gibbons said later that he was not in shape, and it is known that he was just out of the flu, but that does not show in the records.

For several years it has been the opinion of the experts that Greb would go along to a natural end unless someone discovered a strong legitimate middleweight, one with speed and a snappy punch who would not be bothered by the necessity of making weight.

Delaney is just such a fighter. He is a tall, rangy, young French-Canadian, with a good punch, with a lot of clever boxing in him and with plenty of experience.

Health Teaching Must Begin In Public Schools

ATLANTA, Ga., May 14.—"The only way in which health training and instruction can be made to reach the intimate daily personal lives of all our people is through training the children in the public schools." This is a statement made by Dr. Charles H. Keene, director of the Bureau of Health Education of the State Department of Public Instruction, Harrisburgh, Pa., before the National Tuberculosis Association today.

"Teaching of health," says Dr. Keene, "must be as large a part of the regular school curriculum as teaching of arithmetic, geography, or any other of the routine subjects. It will never be possible to set aside definitely for health teaching enough of the daily time available for school use so that all the necessary habits may be formed and information acquired concerning health."

"All school courses must be devised and taught in such a manner then as to permit frequent opportunities for correlation with the various parts of the health program. Physical geography becomes a mat-

MEN AND WOMEN IN NEWS OF THE DAY.

Right: ANDRE TARDIEU & BADE RUTH
Below: MARY S. ALLEN & MRS. GEO. J. GOULD, JR.

Mrs. George J. Gould, Jr., divorced wife of the son of the late George J. Gould of New York, is soon to marry Carlos Ortiz Bausaido, wealthy South American youth. Andre Tardieu, French High Commissioner to the United States in the World War, was severely beaten when he attempted to address a Communist meeting in Paris. Babe Ruth, home run king, has knocked his first home run of the 1924 season, and declares he is going after his own record. Wearing a decidedly manly garb, Mary S. Allen, commandant of the Women's Auxiliary Police in London, has arrived in New York to study American police methods, especially the manner of conducting night and women's courts.

WHY BANKS?

By J. H. PUELICHER, Chairman,
Committee on Public Education, American Bankers Association.

Bank deposits are broadly divided into two kinds:
1. SAVINGS DEPOSITS.
2. COMMERCIAL DEPOSITS.

SAVINGS DEPOSITS—deposits more or less permanent, in a savings bank or savings department of a bank, on which interest is paid, and which are withdrawn against the depositor's receipt; they in effect represent conservative investment of funds accumulated through personal thrift.

COMMERCIAL DEPOSITS—deposits in a business account at a bank from which money is withdrawn by check; they represent an essential facility for the conduct of business.

Many persons and all business houses have checking accounts in which to deposit the cash and checks which they receive and against which to draw their own checks to pay bills, wages and purchases. Thrifty people almost universally keep their savings in a savings account.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Limestone therein, but if not, then in any newspaper published in the Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said Judicial District for four weeks previous to the return day hereof, B. D. Flickinger whose residence is unknown, to be and appear before me, a Justice of the Peace in and for Limestone County, at a regular term of the Justice's Court for Precinct No. 4 of said County, to be begun and holden at my office in Mexia on the 10th day of June, 1924, at ten o'clock A. M., to answer the complaint of Rogers Mercantile Company in a certain suit therein pending, in which Rogers Mercantile Company is Plaintiff, and B. D. Flickinger is Defendant.

Filed on the 26th day of April, A. D. 1924, and numbered on the Docket of said Court No. 739, the nature of the Plaintiff's demand being in substance as follows: On July 14th, 1923, at the instance and request of Defendant the Plaintiff took defendant's note in the sum of \$44.50, due thirty days after date, said note providing for ten per cent attorney's fees if placed in the hands of an attorney for collection. Plaintiff says further that he placed the note in the hands of Keys & Mason, attorneys, for collection, agreeing to pay them the ten per cent attorney's fees provided for in the note, the same being reasonable attorney's fees; that the note is now past due and unpaid, and that Defendant, though often requested, has hitherto failed and refused, and still refuses, to pay the same or any part thereof, to Plaintiff's damage in the principal sum of \$44.50.

Wherefore, Plaintiff prays that the Defendant be cited to appear and answer this suit; that he have judgment in the principal sum of \$44.50, interest, attorney's fees and costs of suit, and for such other and further relief, general and special, in law and in equity, to which he may be justly entitled.

Herein fail not, but have then and there before said Court, at said regular term, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand, this 26th day of April, A. D., 1924.

Southern Baptists Meet At Atlanta Big Problems Up
ATLANTA, Ga., May 14.—(United Press.)—Approximately 7,500 delegates representing 17 southern states and the District of Columbia, today began the first session of the annual Southern Baptist Convention. The convention, which is expected to last through next Saturday, bids fair to be one of the most important in the history of the Southern Baptist church. Aside from the election of a president, made necessary by the resignation of Dr. E. Y. Mullins, of Louisville, Ky., now completing his third year in that capacity, many matters of importance will come up. Among them are:
1.—Completion during 1924 of the \$75,000,000,000 campaign for missions.

Governor Warren T. McCray, of Indiana, was found guilty in 15 minutes by a jury that had been trying him in Indianapolis on the charge of using the mails in a scheme to defraud. Philip Snowden, regarded as one of the brainiest men in the Labor Ministry in England, acting as Chancellor of the Exchequer, has introduced the first Labor budget in Parliament. Grover Cleveland Bergdoll, notorious Philadelphia draft dodger, has disappeared from his haunts in Eberbach, Germany, and his friends profess to be alarmed. Mrs. Agnes Adlaw Pettit, beautiful ex-wife of Clement M. Pettit, son of Milwaukee's "salt king," answered the divorce decree he secured in Milwaukee by filing suit in New York for separation, and by suing her ex-father-in-law for alleged alienation of affections.

Carpentier Now In Chicago All Up In The Air

By HENRY L. FARRELL
(United Press Staff Correspondent)
NEW YORK, May 14.—After being threatened with an injunction that might cause his visit to become indefinite, Georges Carpentier called off all his social engagements here and has gone with his whole party to Chicago.

Carpentier was met at the pier yesterday by Billy Gibson, manager of Gene Tunney, who claims to have first call on the Frenchman's services in this country. Gibson didn't mention business at the time but asked for an appointment.

"See you at the hotel," M. Descamps, the Frenchman's manager said. Gibson waited at the hotel until a telegram extending him the greetings of the season came from Philadelphia, where Carpentier's party stopped long enough to write.

Gibson said today he was going to Chicago to stop the Carpentier-Gibbons fight which is scheduled for May 31, in Michigan City. He claims he can do it and that he is certainly not going to stand for anyone making a sucker out of him.

Carpentier insists that Gibson has nothing to cry about. He figures that he will beat Gibbons and then he will let Gibson put on his Tunney fight.

Gibson does not believe that Georges will be worth anything after Gibbons works on him.

THE WORLD AND HAIR DO MOVE

When newspaper men begin to write articles in favor of bobbed hair, it is pretty certain that they have lost an argument at home and someone has shown them the light. Anyway it is said that it is the correct thing to bob the hair. The ladies have reached the conclusion that bobbing the hair is another one of the privileges of the race to which the men are not to have the exclusive right any longer. Club women are taking the matter up approvingly and from certain points it is said that many favor the complete removal of woman's former crown of glory, by using the clippers altogether and not the scissors. In other words, the clipped head is now expected to take the place of bobbed heads. But all great reforms have economic results not always foreseen. The hair dressers in many places are doomed to go the way of discarded war ships. They are losing their trade and hastily putting up new signs, reading "Marcelling Done Here." The barbers are going off to college and planning to double the size of their shops, talking machines have been removed from all tonsorial parlors, and the safety razor is becoming more popular with the men. We wonder when the ever alert dealers in second hand material or junk dealers will change their signs to read: "Scrap Iron, Waste Paper and Hair Bought and Sold Here."

Governor Pinchot's influence on President Coolidge's political destiny was not ended by the primaries in which he was defeated as a candidate for delegate at large from Pennsylvania to the Republican national convention, in the opinion of those who know what is happening in Washington. The investigation of the Bureau of Internal Revenue, they are saying, is the factor which will reveal Mr. Pinchot's importance as a foe of Secretary Mellon and President Coolidge.

MEN MADE OF BOYS, WOMEN OF GIRLS

Mexia men and women must not neglect their boys and girls. It is surprising to learn how many things can be made out of some products, cotton seed for example, but you can't make men out of but one thing in the world and that's a "boy." The only thing you can make a lady out of is a "girl." With proper attention it is wonderful what miracles may be wrought with the raw material of boys and girls.

In a small Tennessee town, a doctor was awakened one night by the wailing of a baby. Upon investigation he found on the doorstep a wee baby wrapped in an old quilt. There was nothing that would give a clue to the identity of the parents. So the doctor and his wife adopted the little laddies, although they had several children of their own. That doorstep baby manufactured into a man, going through the processes of a refined, cultured, christian home, twice became governor of Tennessee.

Mexia schools are soon to be out for the Summer. Preparations should now be made to continue wholesome influences for the full rounded development of the pupils. The equipping of the Hughes park should be ready for them by the end of school.

THE EDITORIAL OF THE DAY

TO LIVE LONG.

An insurance company issues a set of rules on how to live long. Some of them are as follows:

"Have fresh air where you live and work. Wear loose, light, porous clothing. Spend part of your time in the open air. Have lots of fresh air where you sleep. Breathe deeply. Avoid eating too much. Do not eat too much meat and eggs. Eat various kinds of foods. Eat slowly. Stand, sit and walk erect. Avoid poisonous drugs. Keep clean and avoid catching diseases. Work hard, but play and rest too. Be cheerful and learn not to worry."

All these are simple things, possible to any one, yet there is little question that if they were scrupulously followed life would be made both longer and more happy. It is a safe guess that a good many people die years before their time for the simple reason that they are too lazy to do those things which they know they should do to preserve their health.

But there are other forms of death than natural ones and if you would

truly attain a ripe old age it might be well to observe the following rules and a few others like them: Do not race the railroad train to the crossing. Avoid the product of the boot-work. Wear loose, light, porous clothing. Drive your car on moonlit roads with one hand. Hold yourself firmly in check and do not permit your tongue to ask, "Is it hot enough for you?" of every person you meet during the torrid months. Do not enrage the neighbors by learning to play a saxophone or other wind blown instruments in a thickly settled community. Don't flirt—but if you must, pick on somebody that is single. Keep your chickens up during garden making time. Remember that while it is laudable to arise early, the whirring of your lawn mower at 5 a. m., is apt to send the man next door reaching for the family shotgun. Do not get in the habit of telling long winded experiences to your friends who are busy minding their own business. Drive your car at a moderate rate of speed and watch the road. Boost for all public improvements.

N. C. CONVERTS SWAMPS INTO RICH FARMS

BELHAVEN, N. C. (United Press.) Possibility that the State Legislature will be brought here during its next session for members to see the remarkable improvement wrought by converting swamps into farm lands is being expressed by members from this section.

These solons believe that if their

colleagues can see the 200,000 acres of farm lands, now on the tax books at from \$150 to \$200 an acre and producing corn 12 feet high, which once was sold for a few cents an acre, less trouble would be had in getting through other drainage projects.

A total of 1,000,000 acres has been drained by the state with 2,370,000 now under process of being drained.

For Mexia, I WILL.

Tomorrow evening is designated as Karek day in Mexia and a hearty welcome will be given the Wacoites when they invade our city and give the public a real treat without any obligation on the part of or any cost to the Shriners or any one else. Friday night will be designated by the Shriners as Corsicana day when a hundred Shriners and their friends are expected from Corsicana.

Physical Culture Class Exhibition Pleases Public

(Continued From Page One)

were feature acts deserving special mention, a large part of the exhibition was participated in by all the members of the gymnasium classes, thus illustrating the principle of giving benefit to the greatest number possible.

The program was divided into two general parts: Gymnastics and Dances. In the first division, such precision and excellence of training and performance were evident that on-lookers were surprised as well as highly pleased. One spectator remarked that he had seen a number of such exhibitions in colleges and universities, but that he had never seen such uniform excellence of performance as was indicated in this one.

The second part of the program consisted of a series of interpretative dances. These varied in theme from the beautiful to the comic, but without exception they were well done. The whole program, which is given below, was a credit to the school management, to Miss Earle, the instructor, and to the girls who took part in the exhibition.

Part I—Gymnastics.

1. Indian Clubs—Students.
2. Mimetics—Students: Bowling, Golf, Swimming, Athletic High Jump, See-Saw, Paddling, Rowing.
3. Tumbling by Students.

Part II—Dances.

1. Elf—Edna Irwin, Josephine Wolford, Lalia Colbert, Juanita Collins, Inez Calame, Willie Mae Stewart.
2. Rainy Day—Elizabeth Jones, Marianna Murphy.
3. Little Miss Muffet—Eleanor Moore.
4. Parade of Wooden Soldiers—Lilla Taylor, Albertine Mace, Tina De Long, Virginia Rollins, Ruby Kennedy, Ola Barnes, Mary Porter Travis, Ruth Lilly, Lurline Betts.
5. Easter Rabbit—Lilla Colbert.
6. Chinese Love Story—Eugenia Mullens, Dorothy Brown, Elizabeth Jones.
7. Polish—Lucille Williams, Afton Laird, Anne Faye Hendon, Tina De Long, Opal Hale, Emma Jean Smith, Itasca Stewart, Ruby Miller, Thelma Taylor, Velma Wallace, Jewel Hendon, Leona Steele.
8. Southern Sweethearts—Men: Albertine Mace, Lilla Taylor, Lurline Betts, Ila Mae Overstreet, Hazel Manning, Willie Mae Stewart. Ladies: Eugenia Mullens, Lois Terry, Clovis Porter, Marianna Murphy, Eleanor Moore, Mary Porter Travis.

THIS DRESS HAS A DUAL PERSONALITY

Left: Aainty job of crepe Chenette and Right: The same dress takes to itself a masculine and extremely smart plastron of lace gives a charmingly feminine appearance to this plain dress of black Satin de Lyon.

A very good way to add variety to the wardrobe is to have a dress which you may wear with very different kinds of collars. Take, for instance, this dress of black Satin de Lyon, with long sleeves and a round-shaped low neck in front. It is equally at home with the two styles of neckwear pictured, and presents an entirely different appearance with each one.

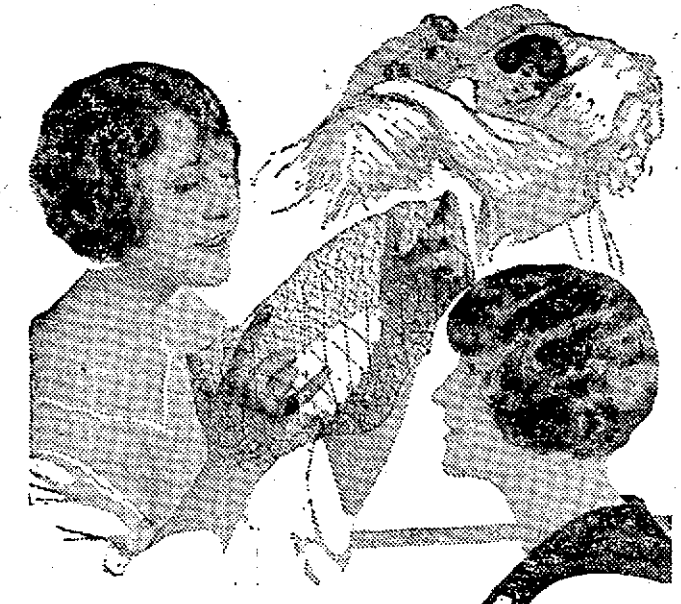

MILADY WOULD A TRAVELLING GO

In the opening of a comfortable travelling coat, says Henri Creange, this scarf in printed crepe bordered with fringes at the ends, would be very attractive. The way the scarf is worn is to be noted; one end falls at the back but inside of the coat the other in front and outside. The hat very often matches the scarf, as in this case.

This sketch by Cheney is a whole volume on how to enliven even a rough day at sea, or a winter coat on land.

Bobbed Hair Now Costs \$180 a Year With High Peak Yet to Be Reached

"It's not the initial cost, but the upkeep!"

That's the wall of the bob-haired lady. And beauty experts are placing the upkeep on the average head of bobbed hair at \$180 a year. This includes marcelling, curling, trimming and shampooing. Babylonians and Egyptians never dreamed of spending so much on their cultivated rows of elaborate curls. Nor did the Greeks and Romans on their close-cropped polls and fragrant oils.

In Paris this high upkeep cost has been cut in half by the simple process of wearing a hair net over the bob at night. It saves the curl and reduces hair-dressing bills. The custom is rapidly taking hold in America. Gainsborough nets, of large construction, are replacing the old-time night cap, say experts. The small, tight net is ineffective. Evolution of what stylists term

the "bob fad" can be sharply traced, not only in the type of the bob, but also in manner of dressing. For a long time after bobbing first began the hair was permitted to "run wild." In recent months the wearing of nets has gained wide popularity because of the freedom and wide choice of bob styles it makes possible. Except among the poorer classes, nets are now worn as much with bobbed as with long hair. Gainsboroughs are used, because, being large and true-shaped, they permit room for all bobs, the fluffy Ina Claire, the King Tut, the Cluster-curl Shingle or the straight bob. All these need space, and stylists say a small hair net flattens the hair into ugly clumps. "Demand for nets," said an officer of the Western Company, of the world's largest manufacturers of hair nets, "has been especially brisk in recent weeks. A determination to reduce the estimated cost of \$180 a year is obviously the cause."

College Annual Received Monday

The "Wigwag" the Annual published by the Senior class of Westminster College was received from the printer Monday and is now on sale at the College. The Annual was published at a cost of over \$1500 and is being sold for \$3.50 a piece. It is bound in imitation calf and was designed and executed by the largest company in the state which specializes in the class of work. It contains over one hundred and forty pages and represents one of the best Annuals put out by any Junior College in the State. Wallace E. Byers, of Coledge, is the Editor and Charles Mills, of Teague is the Business Manager.

G. V. Parker, of Waco, was in the city Monday.

MAKE YOUR FACE AS LOVELY AS YOU ARE!

All most people see in anyone is what is on the outside. Naturally, those who are handicapped by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention.

You can "make the frame as lovely as the picture really is," by simply getting rid of those skin disfigurements, if you will just use Black and White Ointment and Soap. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be around you. They are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap. (Adv.)

apparent in that district. The field at present is said to have a potential production of 60,000 barrels daily, about half of which is being shipped by train. They forecast a daily production for that Balcones fault pool of 100,000 barrels daily. It is also reported that the Guadalupe extension, three miles across the San Marcos river, is proving more prolific than the discovery pool. In the Guadalupe pool some of the new wells which came in

for better production than was anticipated have had to run into dirt storage.

All that prevents enthusiasm running high in the district there is said to be the water trouble which is considered somewhat discouraging. The producers soon turn to fluid, it is claimed. The boundaries of the pool have not been defined in any direction. Many wells are now on the sand and are expected to be brought in as soon as storage facilities have been provided and field line facilities arranged. The heavy yield the first few hours has provoked a contest, more or less spirited, it is claimed, with a view of being first to secure the flush.

Health Teaching Must Begin In Public Schools

ATLANTA, Ga., May 14.—"The only way in which health training and instruction can be made to reach the intimate daily personal lives of all our people is through training the children in the public schools." This is a statement made by Dr. Charles H. Keene, director of the Bureau of Health Education of the State Department of Public Instruction, Harrisburgh, Pa., before the National Tuberculosis Association today.

"Teaching of health," says Dr. Keene, "must be as large a part of the regular school curriculum as teaching of arithmetic, geography, or any other of the routine subjects. It will never be possible to set aside definitely for health teaching enough of the daily time available for school use so that all the necessary habits may be formed and information acquired concerning health."

"All school courses must be devised and taught in such a manner then as to permit frequent opportunities for correlation with the various parts of the health program. Physical geography becomes a mat-

MEN AND WOMEN IN NEWS OF THE DAY.

Right: ANDRE TARDIEU & BABE RUTH
Below: MARY S. ALLEN & MRS. GEO. J. GOULD, JR.

Mrs. George J. Gould, Jr., divorced wife of the son of the late George J. Gould of New York, is soon to marry Carlos Ortiz Bausilio, wealthy South American youth. Andre Tardieu, French High Commissioner to the United States in the World War, was severely beaten when he attempted to address a Communist meeting in Paris. Babe Ruth, home run king, has knocked his first home run of the 1924 season, and declares he is going after his own record. Wearing a decidedly manly garb, Mary S. Allen, commandant of the Women's Auxiliary Police in London, has arrived in New York to study American police methods, especially the manner of conducting night and women's courts.

WHY BANKS?

By J. H. PUELICHER, Chairman,
Committee on Public Education, American Bankers Association.

Bank deposits are broadly divided into two kinds:

1. SAVINGS DEPOSITS.

SAVINGS DEPOSITS—deposits more or less permanent, in a savings bank or savings department of a bank, on which interest is paid, and which are withdrawn against the depositor's receipt; they in effect represent conservative investment of funds accumulated through personal thrift.

COMMERCIAL DEPOSITS—deposits in a business account at a bank from which money is withdrawn by check; they represent an essential facility for the conduct of business.

Many persons and all business houses have checking accounts in which to deposit the cash and checks which they receive and against which to draw their own checks to pay bills, wages and purchases. Thrifty people almost universally keep their savings in a savings account.

CITATION BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Limestone if there be a newspaper published therein, but if not, then in any newspaper published in the Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said Judicial District for four weeks previous to the return day hereof, B. D. Flickinger whose residence is unknown, to be and appear before me, a Justice of the Peace in and for Limestone County, at a regular term of the Justice's Court for Precinct No. 4 of said County, to be begun and holden at my office in Mexia on the 10th day of June, 1924, at ten o'clock A. M., to answer the complaint of Rogers Mercantile Company in a certain suit therein pending, in which Rogers Mercantile Company is Plaintiff, and B. D. Flickinger is Defendant.

Filed on the 26th day of April, A. D. 1924, and numbered on the Docket of said Court No. 730, the nature of the Plaintiff's demand being in substance as follows: On July 14th, 1923, at the instance and request of Defendant the Plaintiff took defendant's note in the sum of \$44.50, due thirty days after date, said note providing for ten per cent attorney's fees if placed in the hands of an attorney for collection. Plaintiff says further that he placed the note in the hands of Keys & Mason, attorneys, for collection, agreeing to pay them the ten per cent attorney's fees provided for in the note, the same being reasonable attorney's fees; that the note is now past due and unpaid, and that Defendant, though often requested, has hitherto failed and refused, and still refuses, to pay the same or any part thereof, to Plaintiff's damage in the principal sum of \$44.50.

Wherefore, Plaintiff prays that the Defendant be cited to appear and answer this suit; that he have judgment in the principal sum of \$44.50, interest, attorney's fees and costs of suit, and for such other and further relief, general and special, in law and in equity, to which he may be justly entitled.

Herein fail not, but have then and there before said Court, at said regular term, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand, this 26th day of April, A. D. 1924.

Byers To Address School at Forest Glade at Closing

Joseph H. Byers, a well known attorney of this city, will deliver the address Wednesday night at the closing of the Public School at Forest Glade. He has been invited by the County Superintendent, Mrs. Cora Ferguson, to repeat the address he delivered last week at Fallon. The subject of the address is "Aristocracy and Aristocracies." Southern Baptists Meet At Atlanta Big Problems Up

ATLANTA, Ga., May 14.—(United Press.)—Approximately 7,500 delegates representing 17 southern states and the District of Columbia, today began the first session of the annual Southern Baptist Convention. Governor Warren T. McCray, of Indiana, was found guilty in 15 minutes by a jury that had been trying him in Indianapolis on the charge of using the mails in a scheme to defraud. Philip Snowden, regarded as one of the brainiest men in the Labor Ministry in England, acting as Chancellor of the Exchequer, has introduced the first Labor budget in Parliament. Grover Cleveland Bergdoll, notorious Philadelphia draft dodger, has disappeared from his haunts in Kibitz, Germany, and his friends profess to be alarmed. Mrs. Agnes Adlaw Pettit, beautiful ex-wife of Clement M. Pettit, son of Milwaukee's "salt king," answered the divorce decree he secured in Milwaukee by filing suit in New York for separation, and by suing her ex-father-in-law for alleged alienation of affections.
